SUMMARY

Backend Software Engineer with 2+ years of experience building Java microservices with Spring Boot and Quarkus. Experienced in distributed systems, asynchronous messaging, Redis caching, PostgreSQL, Docker, and AWS/Azure cloud environments. Built and integrated airline booking systems with Amadeus, Air Arabia, and Aegean, with a focus on scalability, reliability, and performance.

PROFESSIONAL EXPERIENCE

Mid Level Software Engineer 08/2026 – Present
Hilbertech (Remote), Italy
- Resolved a concurrency issue where multiple microservices simultaneously updated shared Redis-cached responses, improving data consistency and reliability under parallel processing.

Software Engineer 07/2024 – 08/2026
Hilbertech (Remote), Italy
- Developed backend services for **Flight-Fusion** and **Dreamnfly**, enterprise flight booking platforms used by travel agencies to search, book, and manage airline reservations.
- Integrated multiple airline and payment providers including **Amadeus**, **Air Arabia**, **Aegean** Airlines, and **Nexi** using REST and SOAP APIs.
- Containerized and deployed **Java/Quarkus** microservices across **AWS** and **Azure** using **Docker** and **GitLab CI/CD**.
- Reduced container memory utilization from ~80% to ~15% by migrating **JVM** deployments to **Quarkus Native**, improving scalability and reducing infrastructure costs.

Back End Intern 07/2022 – 09/2022
Fawry Cairo, Egypt
- Developed backend APIs using **Java** and **Spring Boot** as part of a sales management system internship project.

EDUCATION

Bachelor of Computer Engineering 09/2019 – 06/2024
Mansoura University Faculty of Engineering Mansoura, Egypt
GPA 3.2

TECHNICAL SKILLS

- **Programming Languages:** Java, PHP, C#, JavaScript
- **Frameworks & Technology:** Spring Boot, Hibernate, Quarkus, Laravel, Eloquent, RESTful Services, SOAP
- **Messaging & DevOps:** RabbitMQ, Azure Service Bus, Docker, Kubernetes, GitLab CI/CD
- **Databases:** MySQL, PostgreSQL, Redis
- **Cloud & Platform:** AWS, Azure, Linux, Windows
- **Testing & Tools:** JUnit, Mockito, Git, GitHub, GitLab, Azure DevOps, Jira, Maven, Claude Code, OpenCode

PROJECTS

Sales Management System
Java, Spring Boot, Spring Security, Spring Data JPA, MySQL, Junit, Mockito, JWT
- Built a sales management system using Spring Boot, Spring Security, MySQL, JWT authentication, and JPA. Implemented order and refund management, authentication, search functionality, and role-based authorization.
