SUMMARY

Backend Software Engineer specializing in **Java Technologies**, and deploying applications on cloud platforms such as **AWS** and **Azure**.

PROFESSIONAL EXPERIENCE

Software Engineer

Hilbertech

07/2024 – present
(Remote), Italy

- Developed **Flight-Fusion** and **Dreamnfly**, a microservice-based solutions built with java and quarkus that allows travel agencies and regular customers to easily purchase flight tickets and give them the best prices and offers.
- Integrated with third party APIs like **Amadeus**, **Air Arabia** and **Aegean** as Flights providers and **Nexi** as a payment gateway using both **REST** and **SOAP APIs**.
- Deploy containerized applications on **AWS** and **Azure** with **Docker**, and **GitLab-CI**.
- Optimized memory usage across all containerized applications by reducing it from 80% to 15% through a migration from **JVM-based** applications to **Native** applications, **improving** scalability and cost-efficiency.

Back End Intern

Fawry

07/2022 – 09/2022
Cairo, Egypt

- Acquired proficiency in Java programming and Spring Boot framework.
- Developed an API for a sales management system, enabling real-time purchase monitoring across multiple stores and user groups.

EDUCATION

Bachelor of Computer Engineering

Mansoura University Faculty of Engineering
GPA 3.2

09/2019 – 06/2024
Mansoura, Egypt

TECHNICAL SKILLS

Programming Languages: Java, PHP, C#, JavaScript, HTML, CSS

Frameworks & Technology: Spring (Core, Boot, Security, Data), Hibernate, Quarkus, Junit, Mockito, Laravel, Eloquent, RESTful Services, SOAP, RabbitMQ, Azure Service Bus

Databases: MySQL, PostgreSQL, Redis

Tools: Git, GitHub, GitLab, Azure DevOps, Jira, Maven

Cloud & infrastructure: AWS, Azure, Docker, GitLab CI

Conceptual knowledge: Algorithms, Data Structures, SOLID Principles, Object Oriented Programming, Database designing concepts, Object-relational mapping ORM, Microservice, Unit & Integration Testing, CI/CD.

PROJECTS

Sales Management System

Java, Spring Boot, Spring Security, Spring Data JPA, MySQL, Junit, Mockito, JWT

- Orchestrated the development of an innovative sales monitoring platform, allowing authorized users to seamlessly add new orders or refunds, and providing comprehensive search capabilities to track and analyze system transactions.

LANGUAGES

English

Highly proficient in speaking and writing

Arabic

Native language
